

Eplan Electric P8 1.9 Validation Code

1/4

Updating an Existing EPLAN License Manager

8. Enter your validation code in the **Validation code** box and then click **[OK]**.

Notes:

- At this point, you can also decide to just leave the box blank and enter the validation code later. To do this, click [OK] and exit the installation wizard.
- You can also enter several validation codes, one after another. To do this, click [Apply] after entering the first code. The dialog remains open and (after the licensed add-ons are displayed) you can enter another validation code. Do not click [OK] until you have entered the last validation code.
- ⇒ The licensed add-ons are then displayed in the Validated license dialog.
